

Ready to win.

Ready to lead.

At Eastern Connecticut Health Network, we're innovating, investing and expanding to help patients with sports-related injuries regain their independence and get back to the life they love. Our 10 board-certified orthopedic surgeons are performing the latest in minimally invasive surgical procedures at Manchester Memorial Hospital and Rockville General Hospital. Working together with specially trained nurses, technicians and physical therapists to offer the most advanced diagnostic imaging and specialized rehabilitation programs at each of six convenient outpatient centers. All right here at home, east of the river.

ECHNSM
Eastern Connecticut Health Network

Healthier together.
