

Healthy is confident.

Healthy is an outlook, a state of mind, a way of life. At ECHN, we provide a comprehensive offering of women's health services ranging from imaging, early detection, education and support programs to provide all women access to the highest quality of care.

Our women's health services include:

- Breast imaging and early detection screenings including bone density, breast biopsy, MRI, digital and/or 3D mammography
- Maternity care, education and support services
- Pre- and post-delivery care at Manchester Memorial Hospital's Family Birthing Center and the Maternity Care and Family Planning Center at Rockville General Hospital
- Obstetrics and Gynecology services
- Parenting and family support services at ECHN's Family Development Center

Breast Care Collaborative

ECHN's Breast Care Collaborative is a diverse network of specialists dedicated to addressing your needs and answering your questions surrounding breast health. All support services are free of charge and offered to any patient in need.

Connecticut Breast and Cervical Early Detection Program

This program provides a clinical breast exam, Pap test and mammogram free of charge to women who meet eligibility requirements. The objective of the program is to increase the number of women who receive breast and cervical cancer screenings, diagnostics and treatment referral services.

This program is available for women between 21 - 64 years.

Women's Center for Wellness

The Women's Center for Wellness is a unique care resource for women with a strong focus on providing equal access to care. In a welcoming and relaxing setting, the Center combines comprehensive screenings, wellness services and support programs to help women live a healthy life.
