# DIAGNOSTICS (BLOOD DRAW)

ECHN Diagnostics operates a cutting-edge, fully automated laboratory at Manchester Memorial Hospital so test samples can be received, prepared for testing and analyzed on a single line in order to provide physicians with results in a timely fashion.

In addition to having extraordinary chemistry and hematology departments onsite, ECHN operates numerous walk-in blood draw locations that can accommodate routine blood draw and more in-depth testing. Our skilled phlebotomists are trained in the collection and processing, and work closely with medical technicians, pathologists and technologists to ensure results are reliable and accurate.

**Customer service:**  
**860.872.5235**

**To request copies of your test results:**  
**860.646.1222 ext. 2201**
